

FCC Commissioners
The Federal Communications Commission RE: Docket 04-435
445 12th Street, SW
Washington, DC 20554

Dear FCC Commissioners ,

I am writing to voice my concerns about the FCC's proposal to relax the restrictions on the use of cell phones on airplanes in flight.

There is no hard evidence that cell phone use doesn't interfere with navigational instruments. The introduction of cell phone use in the cabin will not only increase tension among passengers, it will compromise flight attendants' ability to maintain order in an emergency and convey important safety information to all passengers. It is also possible that cell phone use could enable terrorists to coordinate a plan of action more effectively.

Aside from that, it's downright annoying and infringes on my right to peace and quiet during a flight...there's nowhere to escape from the noise pollution!
Please leave the current rules in effect and I will continue to fly and support our airlines rather than drive or not travel at all.

Sincerely,

Suzanne Kocieniewski
